

TOGETHER WE CAN MAKE A DIFFERENCE

Thanks to the generous contributions of time, expertise and financial support, our new health and dental clinic is open and providing critical care for the marginalized and homeless in our community.

We really need your help to continue providing these essential services.

The operational costs are approximately \$85,000 per year. Your donation of time, equipment and money will help us to provide the best service possible to those who need it most.

We are currently in most need of:

1. Volunteers; dentists, dental hygienists, nurses, receptionists, and patient buddies
2. Medical and dental supplies
3. Financial Support

Your charitable contribution will make a significant impact on our community and directly help those in need.

THANK YOU!

THANK YOU FOR YOUR SUPPORT!

HEALTH AND DENTAL CLINIC

A community of compassion, a place of hope.

OUR CLINIC OF COMPASSIONATE CARE

The ehm community faces many challenges when trying to access traditional health and dental care. Lack of identification, mental illness, shortage of family doctors and the cost of dental care have made it nearly impossible for many of our members to receive the medical attention that they require.

At ehm we too often see the impact on people who live with limited care. For too many people having teeth pulled is not the last option—it is the only option. Meanwhile, they endure unspeakable pain and end up with gaps where teeth are missing.

We also see the critical effects of untreated illnesses and lack of foot care.

“It’s been so long since I’ve seen a dentist! Finally my teeth will get fixed! I know so many people who have been waiting for this moment. A free clinic, in a familiar and safe environment”

– Craig, a clinic patient

We have seen many people’s lives positively transformed since receiving treatment at our clinic.

We believe that every human being should have the right to the best physical and emotional care possible. Access to care is essential if people are to lead the dignified and happy lives they deserve.

“I came into the clinic to see Dr. Stone after what I thought was a seizure. She sent me to the hospital right away as she noticed that it was actually a stroke. I’m so glad there was someone at ehm to help.”

– Vince, a drop in participant

“It’s hard when you don’t have proper dental care. In the past, the only way to deal with a sore mouth was to have your teeth removed, without much follow-up. I’m happy to know there will be an alternative for those who need it.”

– Jay, a drop-in client

Recognizing these needs we took action. With the help of our dedicated supporters and volunteers, we have treated hundreds of patients who were in urgent need of free health and dental services.

The Evangel Hall Mission Clinic is a necessary and free source of medical and dental care for homeless and at-risk individuals.
